

St Patrick's College

education case study

The teaching facility within the 1960's accommodation had become totally deficient over the years. Darmody Architecture developed and choreographed an acoustic inner skin which accommodates modern teaching aids while forming a refreshed learning and teaching space which could be subdivided and used as a singular space.

Project:	St. Patrick's College
Category:	Education
Client:	St Patrick's College of Education
Scale:	220m²
Completed:	2013
Value:	€180,000

Architects Comment

Despite the constraints of working with a live teaching institution and very tight time scale the final series of spaces have outcomed as a fantastic learning facility.
